

JM Education Counselling Centre On the Road to Meet You Interviews :

Advertorial for NST 24 Sept 2006

This is the time of the year when parents get serious about what is best for their children after five years of secondary education. As the SPM examination draws near and we are into the last quarter of the school year, parents who have planned for their children's education and intend to send their children abroad after SPM begin to look at options of either Australia, UK or New Zealand, the popular destinations of study within the Commonwealth countries.

Once again, JM Education Counselling Centre is embarking on an extensive On the Road to Meet You consultation from 30 September to 6 October. Joining us in this circuit are Bellerbys College, UK and Taylors College, Australia and New Zealand, two independent high school institutions which are known to Malaysian parents for their teaching quality provision.

Bellerbys College in UK has built a reputation throughout the world for its academic distinction and unsurpassed support services.

Bellerbys College offers unrivalled academic preparation for international students who demand the very best of a British education. Programmes range from GCSE, Foundation and A Level to degree study. Bellerbys College has centres in some of UK's most renowned academic destinations including Oxford, Cambridge, London and Brighton. The performance of Bellerbys students continues to be outstanding: this year 100% of Foundation students achieved a university place.

Bellerbys is proud to record the 2005 results of students in the Foundation and A-Level programmes. 75% of all students' grades were A or B; one third of all students achieved AAA or better; six students gained places at Cambridge University. A total of 34 students gained places at London School of Economics, Imperial College, London, University College, London and Warwick University.

The class of 2006 in Brighton has already five students with confirmation of places at Oxford and Cambridge. Lim Hong Sheng from Malaysia achieved straight A's and has been accepted into Cambridge University to study Natural Science. This bodes well for our class of 2006 as the results come in for the many successful students at Bellerbys College.

Bellerbys College offers Oxbridge and Medical School preparation, at no extra charge, to the best students on our A Level Programme.

In addition to the UK option, Study Group brings to you Taylors College, Australia. Established in 1920, Taylors College Australia, is an institution of 86 years. Over the past 86 years of its stable establishment, it has sent thousands of students through its matriculation and foundation programmes to universities in Australia. Many of these students look back to their days in Melbourne where Taylors College had its first centre as the preparatory stepping stone to prestigious universities in Australia.

Indeed, Taylors brings to you the Monash University Foundation Year (MUFY) in Melbourne; the University of Sydney Foundation Program in Sydney (USSP); the University of Western Australia Foundation Year (UWAFY) and the Taylors Auckland Foundation Year (TAFY). This is in addition to offering the Australian secondary school Years 10 -12 which prepare students for the matriculation qualifications – Victoria Certificate of Education (VCE), the NSW Higher School Certificate (HSC) and the Western Australian Tertiary Entrance Examination (TEE).

Students have vied for and won places in the Group of Eight universities in Australia for competitive courses in medicine, dentistry, pharmacy, engineering, law, commerce and more. Besides these academically challenging courses, the more liberal arts – inclined students have won places in the performing arts.

On The Road to Meet You interviews bring to your towns the opportunity to meet with Mr Tony Cranshaw, Principal, Taylors College, Australia and Mr David Few, Director of International Student Recruitment for Bellerbys College. Joining the team are counsellors of JM Education Counselling Centre.

Make a date with us on 30th September to 6th October 2006 in the following towns : Penang, Butterworth, Alor Setar, Ipoh, Subang Jaya, Klang, Seremban, Melaka, Muar, Batu Pahat and Johor Bharu.
