

**Taylor's Feature – 85 Years of High School and University Preparation
NST 1-10-06**

Taylor's College was established in Melbourne, Australia in 1920. In the eighty six years since its establishment, the organization has adapted to a number of changes both on the educational and social fronts. Taylor's College has grown and now has campuses in Sydney and Perth in Australia, and Auckland in New Zealand.

During its first fifty years, Taylor's College provided some 320,000 students with access to further educational and employment opportunities and was responsible for re - training thousands of ex-service personnel during and after World War II.

Today, Taylor's College is an international college providing VCE (Victorian Certificate of Education) in Melbourne; Higher School Certificate (HSC) in Sydney and the Tertiary Entrance Examination (TEE) in Perth and university preparation courses to both Australian and overseas students. It proudly offers Foundation programs in each city for leading universities : Monash University Foundation Year in Melbourne; The University of Sydney Foundation Program in Sydney; The University of Western Australia Foundation Program and Taylor's Auckland Foundation Year. These programs allow students guaranteed entry, upon meeting the prescribed entry requirements into Monash University, the University of Sydney, The University of Western Australia, Auckland University of Technology and The University of Auckland.

Students have vied for and won places in the Group of Eight universities in Australia for competitive courses in medicine, dentistry, pharmacy, engineering, law and more. Besides these academically challenging courses, the more liberal arts –inclined students have won places in the performing arts.

Student LOW Chuan Ling John is currently studying for the Higher School Certificate at the Sydney Campus and describes his experience.

Taylor's is my key to success because the teachers here are very helpful and caring as they guide me towards my goal which is to enter university here in Sydney. This is a once in a lifetime opportunity for international students. The best thing about studying at Taylor's is that I get to choose the subjects that are more focused towards my goals. Students here are given a choice of the subjects that they want to study. I think this is really important because students can produce better results when they enjoy what they are studying.

John and many like him have taken the trusted route of preparing for university entrance at Taylor's College, Australia. At Taylor's College, our commitment of care and success allows students and parents to fulfill their ambitions and enjoy rich and rewarding lives at university and beyond. A tradition of 85 years is not to be disclaimed. We are proud to be judged by the results and achievements of our students.

Once again, Taylor's College Australia is embarking On The Road To Meet You to offer advice and consultation on options of study in its centres in Melbourne, Sydney, Perth and Auckland. Students may apply now with forecast results for the Jan/ February 2007 Intake.

Mr Tony Cranshaw, Principal of Taylors College, Australia and Mr David Few, Director of International Student Recruitment for Bellerbys College and representatives will meet with potential students in Malaysia from 30th September to 6th October 2006 in the following towns : Penang, Butterworth, Alor Setar, Ipoh, Subang Jaya, Klang, Seremban, Melaka, Muar, Batu Pahat and Johor Bharu.
